South Shore Clean Cities seeking applicants for spring 2019 internship

CROWN POINT, INDIANA -- South Shore Clean Cities was one of 30 coalitions nationwide selected to receive interns through the U.S. Department of Energy's Clean Cities University Workforce Development Program (CCUWDP) for Spring 2019.

The Clean Cities University Workforce Development Program is an initiative of Clean Cities, a government-industry partnership sponsored by the U.S. Department of Energy's Vehicle Technologies Program. Clean Cities strives to reduce petroleum consumption in the transportation sector in nearly 100 regions across the country. Since the creation of the CCUWDP in 2010, Clean Cities has hosted more than 350 interns in more than 60 Coalitions.

The Clean Cities internship will give students studying communications, public relations, business, marketing, engineering or environmental sciences the opportunity to grow public awareness and expand the markets of advanced vehicle technologies, alternative fuels and practices that reduce the consumption of petroleum. Students have participated in research, outreach activities, public education, K-12 outreach, fleet events and a vast array of transportation-related environmental projects.

Details:

- Internships will be available at South Shore Clean Cities starting January 14, 2019 thru April 26, 2019
- Positions are 15 or 20 hours per week for 14 weeks
- Internship dates: Approximately January 14, 2019 through April 26, 2019. Exact start/end dates will be determined
- Stipends range from \$2,500 - \$4,200 per semester depending on academic classification and number of hours assigned by the coalition
- Many past internships have led to permanent positions

Applications are due December 21, 2018.

To apply, please contact South Shore Clean Cities Executive Director Carl Lisek via email at clisek@southshorecleancities.org or (219) 644-3690.

About South Shore Clean Cities

South Shore Clean Cities is a 501(c)(3) organization managed by Legacy Environmental Services, Inc., a woman-owned, certified Women's Business Enterprise. The U.S. Department of Energy's Clean Cities coalitions are organizations designed to reduce petroleum consumption in the transportation sector by advancing the use of clean fuels and vehicles, idle reduction technologies, hybrid electric vehicles, fuel blends and fuel economy while reducing dependence on imported oil.
